Establishing A Nurse-Client Relationship Abstract. • This study examined the relationship between pretherapy clinical assessments of interpersonal relations and (1) patients' therapeutic alliance and (2) outcome in time-limited psychotherapy (up to 25 sessions). For 33 college men with symptoms of depression, anxiety, and social introversion, clinical judgments of interpersonal relations predicted patients' level of collaborative, positively toned participation in a therapeutic relationship, accounting for up to a quarter of the ... Pretherapy Interpersonal Relations, Patients' Alliance ... Abstract. Interpersonal relationships, although considered to be the cornerstone of therapeutic engagement, are replete with issues of power; yet, the concept of 'invisible power' within such formal mental health care relationships is seldom explored and/or critiqued in the literature. This paper involves an examination of power in the interpersonal relationship between the mental health nurse and the consumer. Psychiatry, mental health nurses, and invisible power ... Harry Stack Sullivan, (born February 21, 1892, Norwich, New York, U.S.—died January 14, 1949, Paris), American

psychiatrist who developed a theory of psychiatry based on interpersonal relationships. He believed that anxiety and other psychiatric symptoms arise in fundamental conflicts between individuals and their human environments and that personality development also takes place by a series of interactions with other people.
