The Physiology Of Crop Yield The Physiology of Crop Yield is completely rewritten and focuses more explicitly on quantitative prediction of Crop growth. The Physiology of Crop Yield contains numerous line drawings and tables, as well as 30 pages of reference. The overall layout and design of text, tables, and figures follows that of traditional textbooks...the text seems well suited for an upper-level undergraduate course with a prerequisite of plant physiology." Scientific knowledge and understanding of physiological and genetic factors influencing crop yield have advanced considerably during that period, aided in part by increased numbers of researchers, new techniques, and new instrumentation. Physiology and Determination of Crop Yield Crop yield can be expressed as the product of three factors, the amount of intercepted radiation, radiation use efficiency (RUE) and harvest index (HI). RUE is smaller for C3 than C4 crops, and is... (PDF) The physiology of crop yield, 2nd
